

SONOMA INDEX-TRIBUNE.

Sonoma, Sonoma County, Cal., August 4, 1906.

H. H. GRANICE, Editor.

We Are Growing Old.

We are growing old. The INDEX-TRIBUNE is twenty-eight years old to-day, but is more vigorous than of yore. Like old wine it improves with age, and its influence in its field of activity is greater than ever. It is with pleasure and no small degree of satisfaction that we write down the fact that this newspaper is appreciated by all classes of people in this community, as it has always been its aim to print all the news in a newsy way and be fair to all in its editorial columns regardless of any particular church, secret society or political party. It treats all alike, according to praise where praise is due and condemning the unworthy. For twenty-eight years the INDEX-TRIBUNE has lived and flourished entirely on its merits as a local newspaper. It has not, nor will it ever be controlled in the interest of any clique, clan or faction in this community. It is a newspaper of the people, for the people, and knows no other master. We thank its friends for their cordial support in the past and bespeak their good offices in the years to come.

CONGRESSMAN DUNCAN E. MCKINLAY was a passenger on the California Northwestern Tuesday evening en route to Santa Rosa. Mr. McKinlay who but recently returned from Washington, is looking well. His fine record as the representative of the Second District in Congress, has won for him golden opinions regardless of party affiliations. And why should it not be so when he has worked so zealously and successfully, too, for the good of his entire constituency. Take for instance the legislation he sponsored in having passed which gave to Glenn and Colusa, two of the banner Democratic counties of his district, an irrigation system that will add millions to the wealth of their people. This is only one of the many instances where Mr. McKinlay has through his force of character, fine personality and influence with the administration forced to the fore legislation for the benefit of his district that has been beneficial to all alike. That he will be renominated and re-elected the coming Fall by an overwhelming majority is as certain as the sun rises in the East and sets in the West.

The Healdsburg Tribune will have an "Opening Day" on Saturday, August 11th, to commemorate its new building erected in place of the one destroyed by the earthquake last April. F. W. Cooke, the editor and proprietor, has sent out invitations to his brother journalists to be his guests on that day, and no doubt every newspaper in the county will be represented. Brother Cooke was a heavy loser in the big earthquake, the Tribune office and its contents being completely wrecked by the falling walls of an adjoining building. At the time of the disaster he was in the City of Mexico, but he hurried back to Healdsburg, and through the aid of his obliging contemporaries never missed an issue of his excellent little paper. It takes something more than an earthquake to put Brother Cooke out of commission, for like old Eli, "he will get there every time." Thanks for the invitation, Frank. We will be with you.

PERSONAL AND SOCIAL NOTES.

Joe B. Small transacted business in Santa Rosa last Monday.

NOTICE

To Young Men and Women.

Great opportunities are awaiting you in the Business World. Hundreds of young men and women wanted in and around Oakland and San Francisco to take positions as stenographers, bookkeepers, telegraphers, office assistants, etc., at good salaries.

The Polytechnic Business College, of Oakland, the leading school of the kind in the West, endorsed by the Chamber of Commerce and leading educators, offers exceptional opportunities to those who can enter college at once and prepare for positions. This school is considered by many to be the best equipped business college in America. It is unquestionably superior to any other similar school west of Chicago. All expenses low. Home influence. Individual instruction.
Address Polytechnic Business College, Dept. A, Oakland, Cal., for free catalogue showing the elegant interiors and splendid facilities of the school, which has five times more money invested in equipment than any other school in the West. New building in perfect condition.

FATHERS' CLUB FOR
SONOMA SCHOOL.

Numbers at Present Sev-
enty Heads of Families
in Sonoma School
District.

A Fathers' Club has been organ-
ized in this place, the charter mem-
bership of which numbers seventy
heads of families in Sonoma and
vicinity, whose children to the
number of 105 are enrolled as
scholars in the Sonoma Public
School.

The object of the club is to look
after the interests of the school in
a general sense, make suggestions
for its betterment, improve the
play grounds, etc.

The membership of the club is
confined entirely to the heads of
families and has taken the place of
a "Mothers' Club," which was agi-
tated by many ladies in this place
some months ago, but which never
came to a head.

Death of Geo. W. Spencer.

Geo. W. Spencer, son of Mrs. M.
E. Spencer of this place, died in
Oakland Wednesday. The im-
mediate cause of death was
pneumonia, contracted in San Fran-
cisco following the earthquake and
fire.

Mr. Spencer spent his boyhood
and young manhood days in this
valley and was well known to all
our old residents. He was a genial
and companionable young man and
his society was much sought after.
He removed to San Francisco
fifteen years ago and was well and
favorably known in business circles
in that city.

He was married, besides his mother,
to a large number of relatives
in this place and San Francisco to
mourn his final leave-taking.

Among these relatives are Dr. Ali
McLaughlin and Mrs. G. W. Hooper
of San Francisco, and Granville S.
Harris and Miss Jeanette Cooper
of this place.

Mr. Spencer was born in San
Francisco and was aged 45 years.

The remains were embalmed and
will arrive here this morning on
the Southern Pacific train. There
will be services in the M. E. church,
and the funeral cortege will then
proceed to Mountain Cemetery,
where the interment will take
place under the auspices of Temple
Lodge, No. 14, F. & A. M., of which
deceased was a member.

New and Up-to-Date Sani-
tarium for Sonoma.

Dr. Byron has returned from his
vacation in the northern part of
the county and has decided to en-
large his field of action here. With
this object in view he has opened
up a sanitarium which is fully
equipped with all modern appli-
ances and up-to-date surgical oper-
ating rooms. There will also be
rooms for patients, lying-in cases,
etc.

Dr. Byron has associated with
him Dr. Hascall, late of San Fran-
cisco, who enjoyed a large and
lucrative practice in that city pre-
vious to the fire. Dr. Hascall has
located here because he believes
Sonoma an ideal place for a sani-
tarium owing to its fine climate,
pleasant surroundings and accessi-
bility to the metropolis.

Mrs. Dr. Hascall, who is also a regularly
graduated physician, will be asso-
ciated with Drs. Byron and Has-
call.

The entire upper floor of the Dal
Pozetto building on Napa street
has been leased for a term of years
for the sanitarium, and a large
shipment of sanitary appliances, in
addition to the already well
equipped offices, have been ordered
from the East, as it is the inten-
tion to make the sanitarium second
to none in this part of the State.

Mrs. Abshire, wife of A. C. Ab-
shire, formerly principal of the
Sonoma Grammar School, died at
the home of her sister-in-law in
Geyserville recently. The deceased
had long been an invalid, but her
sufferings with Christian fortitude
up to the very last. She leaves
a husband, a son and two
daughters to mourn her loss.

Napa street, near the Perkins
place. Work on the building will
commence at once.

CORNELIUS WINS WITH
UNUSUAL KNOCKOUT.

Lands Haymaker in Third
Round and Williams
Goes Down and Out.

The boxing bout at O'Rourke's
Pavilion held Friday night of last
week under the auspices of the So-
nomma Athletic Club brought out a
large number of admirers of the art
of self-defense.

The main event of the evening
was a six-round contest between
Emile Cornelius of this place, the
pride of the local club, and Wil-
liams, a professional scrapper of
San Francisco. Both men entered
the ring in the pink of condition.

Williams had the advantage in
weight, being about ten pounds
heavier than his youthful oppo-
nent.

The bout lasted three rounds,
coming to a sudden termination
when Cornelius succeeded in land-
ing his famous knock-out punch on
the jaw.

In the first round the men sparred
cautiously for a few seconds to size
each other up and then there was a
mix-up in which both landed some
heavy punches, and just before the
gong sounded Cornelius floored
Williams with a left-hand jab that
nearly put him out, the gong alone
saving him.

The second round was an excit-
ing one from start to finish, and it
was easy to be seen that Corne-
lius had his man going. He knock-
ed Williams down repeatedly and
he took the count every time.
Finally the clang of the gong again
saved him.

The third round was all Corne-
lius, and after several interchange
of blows Williams went down and
out from a right-hand swing to the
jaw.

The fight from start to finish was
a clean one, both men fighting fair,
and the referee, J. Matthews of El
Verano, being one of the best that
ever refereed a boxing bout in this
place.

Emile Cornelius, the victor, is a
Sonoma boy 19 years of age. He
has never fought outside his local
club, but has met a number of pro-
fessional boxers from San Francisco
and has defeated every one of them.
He has never yet been defeated and
has won all his fights in one, two
or three rounds. He has a phenom-
enal punch, and once he lands
that right hand swing it is all off
with his adversary. His fighting
weight is 145 pounds.

His next bout will be with a
noted Vallejo scrapper.

Sale of Fine Horses.

Otto Gerike shipped two horses
to San Francisco, via Lakeville,
last Tuesday. One of them, a four-
year-old bay mare, was disposed of
for \$250, and the other animal
brought \$150. Both horses were
raised on his ranch near this place.

WELL KNOWN

COUPLE TO WED.

William Church Will Lead
Miss Jennie Marcucci to
the Altar August 22.

The engagement of William T.
Church and Miss Jennie Marcucci
of Schellville has been announced.
The wedding will take place at the
home of the bride-to-be on Wed-
nesday, August 22d.

Miss Marcucci is the bright and
winsome daughter of Mr. and Mrs.
Abramo Marcucci, wealthy and old-
time residents of this valley.

Mr. Church is the youngest son
of Mr. and Mrs. Douglas Church,
pioneer residents of Sonoma, and a
very popular young man. He has
been leased for a term of years the Fred
D. Spaulding ranch of 250 acres
near Embarcadero. Here, after the
nuptial knot has been tied, the
young couple will make their future
home.

WORK ON NEW CITY
HALL BEING RUSHED

Twenty Mechanics Now at
Work on the Building.

Contractor MacQuiddy has now
a force of twenty mechanics at work
on the New City Hall and all is
life and bustle about the new
structure.

Thos. Coffey of Vallejo, who
built the big dry dock at that place,
is overseeing the stone-setting and
C. Sherer has charge of the stone
work. The building is being erected
with great care and when com-
pleted will be earthquake proof.

The destruction of San Fran-
cisco, the closing of the banks and
the stringency of the money market
after the big earthquake caused a
cessation of all work on the build-
ing until the banks opened for busi-
ness on June 1st, since which time
work has progressed very satisfac-
torily on the new municipal build-
ing, which will be completed some
time this fall.

Cliff Bean was in Oakland Sun-
day. Wonder what attraction
draws Cliff there so frequently?

C. Spindler spent Sunday with
his family and left in the evening
on a business trip to Los Angeles.

Eugene Dutil, who is in the em-
ploy of the Southern Pacific at
Oakland, visited his parents here
Saturday.

The young son of Mrs. J. W.
Dalton, who is now stopping at the
Ross Hotel, is confined to the bed
with measles.

C. H. Hellman of the firm of
Hellman-Paine Co., commission-
merchants of Oakland, was in this
vicinity Monday looking after busi-
ness in his line.

Jack Mathews officiated as re-
feree at the Cornelius-Williams bout
at Sonoma Friday night. Those
who saw him in this capacity all
praise the way he handled this im-
portant position.

Lucien Pilastre, who has been
working in Goldfield, Nevada, for
some time past, was compelled to
return home Sunday on account of
being sick. He says there is noth-
ing in that country but sand.

An excursion train of fifteen cars,
drawn by two engines, passed
through here Sunday morning go-
ing to Santa Rosa to attend the
Eagles' picnic. We understand the
excursionists were from Vallejo.

H. Hanson, superintendent of
Takalon vineyard of Oakville, was
in town Friday. Mr. Hanson has
been inspecting the Government
experimental vineyards for the past
two weeks and was en route home
from here.

J. K. Bigelow says you never
know the pleasure there is in life
until you get an auto. If you will
question him you will ascertain
that he uses his auto as a pleasant
form of physical culture—rides out
in the country a few miles, breaks
down, and walks home.

A big crowd of sports from our
place attended the Cornet W. L.
Williams boxing bout here Friday
evening from 7 to 9 o'clock. The
fight was a very close one, and
was decided by a majority of the
judges.

A BURMESE JUGGLER.

The Simple Method by Which He Put His Victim Asleep.

A Burmese juggler recently gave an exhibition of his powers on board a steamer proceeding from Moulmein to Rangoon. The subject was a native servant of an officer, and the experiment took place on the deck of the ship. There was no collusion between the experimenter and the subject, for they were strangers to each other and were surrounded by the passengers and the crew. Indeed, so impressed with the juggler's powers were some of the lascars that in alarm they took to the rigging by way of securing their safety.

The subject was a native of Madras, and the illustration given was presumed to be one of the manner in which the dacoits of Burma render their victims insensible. Whether this be the case or not, the practice of the juggler was eminently successful. He seized the neck of the patient with his thumbs, one on each side. Then he compressed the soft parts of the neck below the jaw. In a few moments his subject became insensible and fell like a log on the deck of the ship. There was much alarm naturally created, but the juggler was equal to the occasion. A handkerchief was flapped across the face of the insensible man, and he quickly recovered, although for a time he was in a dazed condition.

What the juggler did was to compress the big carotid arteries which pass up one on each side of the neck and by thus limiting the supply of blood to the brain induce unconsciousness. This is an experiment which was certainly known to the ancient Greeks, and it bears a relationship to a theory of sleep which for long found favor in the eyes of physiologists, who believed that sleep was due to the withdrawal of blood from the brain.

Why Leaves Change Color.

A leaf is composed of a great number of cells, the walls of which are brown. In the spring and summer these cells are all filled with fluid, colored with minute grains of red, yellow and other pigments, which, mixed together, appear green. In the autumn, through the cold, oxidation and other changes take place in the leaf cells, destroying more or less rapidly certain of the color elements. As soon as one of these elements is gone the leaf no longer appears a normal green, but assumes the shade of the remainder of the color elements mixed together. When only the red element is left, the leaf is red; when the yellow alone remains the leaf is yellow, and when all the coloring matter has gone the leaf is brown.

Frost is not the sole cause of the changes of color, but it is an important cause. The more gradual changes of temperature from summer heat to winter cold the greater will be the variety and brilliancy in the coloring of the autumn leaves.

Musical Insects.

More than 3,000 persons in Japan make a good living by breeding, training and selling what are known as "singing insects." Like crickets these insects are and their Japanese names are kusa-hibari and suzu-mushi.

The music which they make resembles that of a silver bell and, though rather monotonous, is very clear and sweet. The Japanese keep the insects in tiny bamboo cages and take quite as good care of them as Americans take of canaries or other pet birds. Some of them prefer the music which is made by a certain species of frog, known as kajika, and they are always ready to pay a high price for frogs which are well bred and well trained.

These they can generally obtain, according to a foreign journal, for several persons spend their entire time breeding and training frogs and insects, which they offer for sale every year at fairs held during June in Tokyo and other large cities.

Social Etiquette in Italy.

Mr. Luigi Villari in his book, "Italian Life in Town and Country," says that social etiquette in some respects laxer, in others more rigid, than in this country.

When a man is here for a short vacation, Fred T. Duhring and family returned from Carmel-by-the Sea Monday evening after a delightful two weeks sojourn at that popular seaside resort.

Ed. Gise of Benicia was in town several days this week, having joined his family here, who have been the guests of Mr. and Mrs. Henry Bates the past week.

Otto von Geldern and Herman Korver have become associated as consulting engineers with offices at 1979 Broadway, San Francisco. Mr. von Geldern is one of the most eminent engineers in the State, and is well-known to all old residents of this valley.

Tourist Excursion Parties to the East

Over the Scenic Line of the World

If you are going East and want to save money, yet travel with pleasure and comfort, it will pay you to investigate our Personally Conducted Tourist Excursions. These parties are in charge of a Manager who accompanies the cars through to St. Louis, Chicago and the Atlantic Coast, and gives his personal attention to the welfare of each passenger in his charge. The schedules are arranged so as to pass through the world-famed Scenery on the Denver & Rio Grande Railroad by day-light. Open-top Observation cars (something entirely new) are used to all passengers. Let us know where you are going and we will be glad to give you full information about your trip, the lowest rates of fare, and send you free of charge some handsomely illustrated books of travel.

IN GREAT DEMAND.

The demand for Chamberlain's Colic, Cholera and Diarrhoea Remedy here has been so great that I have scarcely been able to keep it in stock. It has cured cases of dysentery here when all other remedies failed. —Frank Jones, Pikeville, Ind. This remedy is for sale by L. S. Simmons.

England's First Organ.

Elfric, bishop of Winchester during the reign of Alfred the Great, is reported to have procured an organ for his cathedral. It was the largest instrument then known, having 500 pipes divided among ten keys, supplied by wind from twenty-six pairs of bellows and requiring the services of no fewer than seventy blowers. Judging from this, the Winchester organ either came from Germany or was built upon a German model, for in that country, until much later, the wind was provided by a species of treadmill arrangement wherein the blowers revolved a bar, each working two pairs of bellows, like those of our snailshells, with their feet. —London Queen.

Splitting Paper.

Very often it is worth knowing how to split a sheet of paper. Suppose you had an article which was printed on both sides and you desired to paste it in your scrapbook. You would paste it between two sheets of stout paper and, when nearly dry, draw these apart. You will have half of the printed sheet on each, and by the use of moisture you can readily detach them.

UNNECESSARY EXPENSE.

Acute attacks of colic, diarrhoea and dysentery come on without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and no family should be without it. For sale by L. S. Simmons.

Greater New York consists of forty-five islands. It might be called the Island City. Read the names of some of the larger: Manhattan Island, Long Island, Staten Island, Hart's Island, City Island, Riker's Island, North Brother Island, Randall's Island, Blackwell's Island, Bleecker Island, Governors Island, Barren Island and Coney Island. Many small ones in Jamaica Bay have large names. One island named Marble Hill, near Kingsbridge, has been made by the government channel cut through on the Harlem river improvements.

SUMMER DIARRHOEA IN CHILDREN.

During the hot weather of the summer months the first unnatural looseness of the bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by a dose of castor oil to cleanse the system. Rev. M. O. Stockland, pastor of the First M. E. Church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." Sold by L. S. Simmons.

"MAKE HAY WHILE THE SUN SHINES."

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand as immediate treatment is necessary and delay may prove fatal. Always Something Lacking.
Love is like a waltz. It never quite fulfills all one expects of it. Either the man's lead is too fast or too slow, his hold too tight or too loose, he stumbles over your gown or steps on your feet, and if everything else is right it is the wrong man. —Life.

The Shortest Sermon Ever Preached.

As to preaching, arguing and interpreting Scripture in the pulpit, the ecclesiastical of ministers are endless. We need not have recourse to such studies as that of Lorenzo Dow, who performed "the shortest sermon on record." His subject was "Backsliding," and what might be called the body of his sermon consisted in his climbing up a smooth sapling with great pains and difficulty and the sliding down again. An immense concourse of people had assembled to hear him, and great was their astonishment at witnessing this performance. The only words uttered were, "Hold on there, Dow! hold on." Then he slid down again, put on his hat and left.

Birds in Attack.

Birds display great skill and cunning in the chase. In attack and in guarding their young from injury during the struggle for supremacy. The secretary bird is the inveterate enemy and merciless pursuer of the snake. All sorts, even the most venomous, he hunts with a zest that is at once interesting and amusing. The snake flees from its foe, who follows, watching every opportunity for a blow. When the reptile turns the bird uses one of his wings as a shield and strikes with his foot. The snake buries its fangs in the wing, but leaves the poison in the plumage, and the bird escapes without confusion and disable the snake, and at last it falls, to be at once dispatched by thrusts of the sharp beak into its head. The bird then tosses his victim into the air and, catching it as it falls, swallows it.
